Mark Hinkle, Chief of Police  
Bradley Banz, Fire Chief  
Corey Heck, Public Works

## Mayor's Update

The weather seems not to be able to make up its mind but we asked you to make up yours. We asked you to tell us what size of trash cart you wanted and whether you wanted recycling. This was done in preparation for the city to take over billing for trash on the June 1st utility bills. The agreement the City Council made with Waste Connections will save you, the customer, approximately \$100 per year.

I would like to extend my congratulations to all graduates! It is a wonderful accomplishment whether you are in 5th grade, 8th grade, high school or college. To the parents I say well done in your support of these students both financially and scholastically.

Don't forget to thank a veteran as we approach Memorial Day. Their service to our country is appreciated and respected by those of us who have not had the privilege to serve in the armed forces.

As summer approaches and the weather gets warmer, please remember to lock your cars and remove your valuables from your vehicles. Your car is NOT the place for your wallets, keys, lap tops, or phones overnight.

**FARMERS  
MARKET
